What does CCTV?

“Safe on the move”

- Less crimes committed against the personnel
- Less vandalism
- Increase of passengers riding the vehicle through higher security
- Improve image for public transport companies

VERINT
POWERING ACTIONABLE INTELLIGENCE™

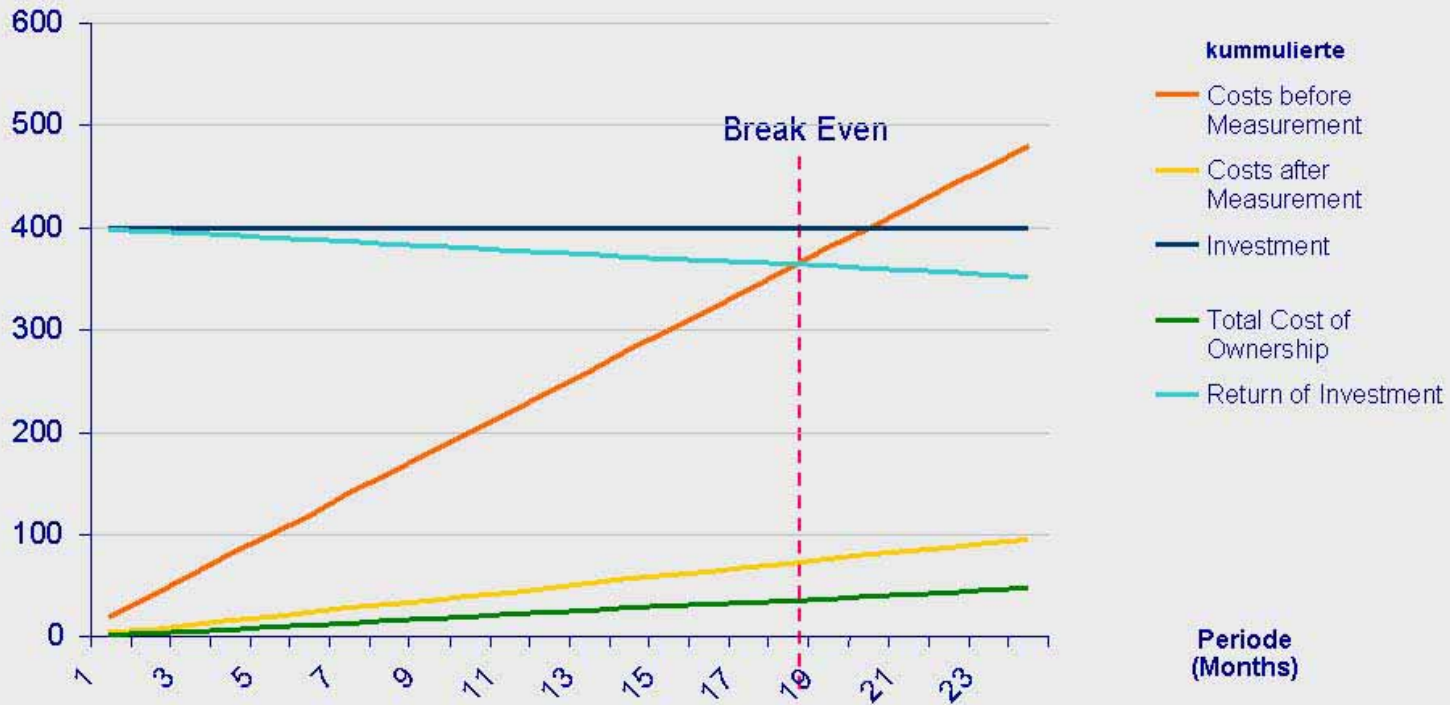

Costs of on-board CCTV

ROI-perspective: An example of video surveillance in a vehicle

Cost / Investment (€ x 1.000)

Source: hd Market Consult

Current Technology

- What is on board CCTV?
- Who is the end customer?
- FPS?
- Storage time?
- Integration to other technologies?
- Transmission?

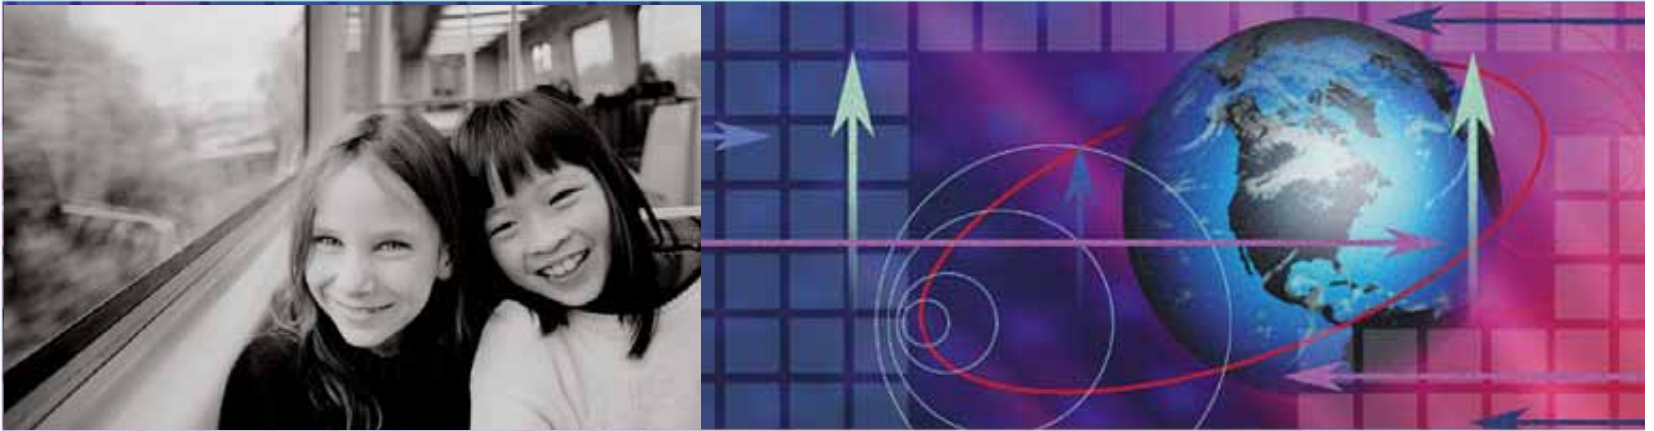

Future Technology

- Passenger counting
- Detect “missing” passengers
- Detect forgotten bags
- Audio recognition
- Detect graffiti
- Facial Recognition
